### **Space (by Harrison)**

It's not very good

The lack of breathing is terrible

There is no oxygen

I don't think living in space is a good idea.

Lately I have been to London  
And I had a look round Buckingham Palace  
Just where the Queen lives

My favourite place in London  
Is Leicester Square  
Because I like to do a lot of shopping

And get a few things  
From Mum's work.

### **Space (by Joe)**

When I went up there in space  
The shuttle felt vibrating and speedy

I will like to go to Mercury  
Just to see the sights and aliens

And also I go to Mars to see the sunlight.

We would eat  
Curry  
Lasagne  
Pizza  
McDonalds

Pepsi Cola to drink  
And Fanta  
And milkshake

People would do shopping  
There would be gun shops for pilots and the army

And a school for them.

### **Getting Old In Space (by Daniel)**

The worst thing in space  
I getting old.
